Hard disk recovery

<i>Malfunction description</i>	<i>Possible malfunction</i>	<i>Price (EUR)</i>
Disk does not spin up	<i>PCB failure</i>	100-200
Disk spins up with knocking sounds	<i>Mechanical components is damaged</i>	200-300
Disk spins up but its not visible by BIOS	<i>Firmware malfunction</i>	200-250
Disk is visible by BIOS but data can not be accessed	<i>Media errors (BAD sectors)</i>	160-210
Operating system is not working	<i>Logical malfunction</i>	70-110

RAID recovery

<i>Malfunction description</i>	<i>Price (EUR)</i>
Malfunction of "Mirror" array	from 100
Malfunction of "Stripe" array	from 160
Malfunction of entire array	from 300

USB FLASH recovery

<i>Malfunction description</i>	<i>Price (EUR)</i>
Logical errors (recovery can be done without unsoldering of memory chip)	60-90
It is necessary to unsolder memory chip and re-create algorithm used	100-200

Memory Card recovery (MMC, CF, SD, MS, xD, SM and others)

<i>Malfunction description</i>	<i>Price (EUR)</i>
Logical errors (recovery can be done without unsoldering of memory chip)	40-60
It is necessary to unsolder memory chip and re-create algorithm used	70-140

CD, DVD i FDD media recovery

<i>Malfunction description</i>	<i>Price (EUR)</i>
Logical errors	50-70
Physical damage	80-120

Special laboratory services

<i>Malfunction description</i>	<i>Price (EUR)</i>
Reparation of each database (SQL, DBASE, PARADOX...)	from 120
Data destruction (Hard disk and media up to 160GB)	from 30
Data destruction (Hard disk and media from 160GB)	from 50
